

UNIVERSITY MATHEMATICAL LABORATORY, CAMBRIDGE

Colloquia

The following colloquia will take place in Room A, the Arts School, Bene't Street, at 2.15 p.m.

1967

- | | | |
|---------|--|---|
| 15 June | Dr. R.K. Livesley
(University of Cambridge,
Department of Engineering) | "Computers in structural engineering" |
| | | A survey of the current state of affairs in computer-aided structural design and the relevance of computer graphics to future developments. |
| 29 June | Mr. Heinz Lemke
(Plessey Automation) | "Computer-aided design of physical systems" |

Mr. Lemke will discuss the hardware and software aspects of computer-aided design. Some features of ECAP and NET-1 will be outlined and the problems of designing electronic circuit analysis programs will also be discussed.

Anyone interested will be welcome.

31 May 1967

P. Hammersley
